Although the applicant selected Fig. 1 as a figure to be presented together with the abstract, the presented Fig. 1 is a full-color photograph which is to be made monochromic and reduced in size in editing the gazette. Thus it is assumed that this photograph becomes extremely unclear. Therefore, it is considered that such unclear photograph would not contribute to the understanding of the abstract. The same applies to Figs. 2 to 7. Such being the case, none of these figures can be employed as a figure to be presented with the abstract.
